

BATCH BURN-OFF **WASH BOOTH**

An excellent companion to Batch Burn-Off Ovens, Batch Burn-Off Wash Booths from Global Finishing Solutions® (GFS) are designed for secondary cleanup of burned-off racks, hooks, fixtures and parts. Overhead and corner nozzles spray water on the part, flushing the loose paint ash from the surface.

HOW IT WORKS

A high-volume pump draws ambient water from the side reservoir tank. Water is sprayed through nozzles located overhead and in each corner. The loose ash is flushed from the surface and travels to the filtration area where it is collected for manual removal.
